Atou Koffi Kougbanhoun
Togo

ADMISSION LETTER

Dear Atou,

Congratulations on your admission to the African Masters in Machine Intelligence (AMMI) program and welcome to the African Institute for Mathematical Sciences (AIMS)!

Your acceptance to join the AMMI program is in recognition of your outstanding accomplishments and our confidence in your ability to succeed as a student of the AMMI program for the academic year 2023-24 scheduled to start this February 05th 2024 at AIMS Senegal.

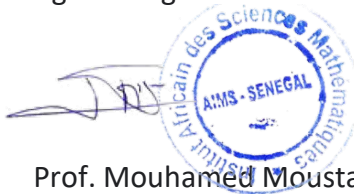

The [AMMI program](#) is a flagship program in Machine Learning in Africa where world-class lecturers together with experts in the field of Machine Learning deliver high-quality education to the multicultural and diverse cohort you are part of this academic year; adding a unique perspective and value to your training for the months ahead.

I am confident that you will use AMMI as an opportunity to expand your knowledge on the topic of Machine Learning and a platform propel your career as done by our exceptional alumni who have interned at MILA, IVADO, Vector Institute, Qualcomm, Google, Facebook, among others.

Your acceptance to the AMMI program includes a full scholarship that will cover your meals, transportation, health insurance, stipend, and housing at Km 2 route de Joal (Centre IRD Mbour) in Mbour, Senegal for the duration of your stay, thanks to our sponsors Facebook and Google.

We trust, as you join the AMMI program, that you will build a strong tie with your peers based on academic excellence and intellectual growth, and have the common commitment to contribute to the future of machine learning in Africa.

Again congratulations and welcome to AIMS-Senegal!

Prof. Mouhamed Moustapha Fall,
Centre President,
African Institute for Mathematical Sciences (AIMS) - Senegal
